Our Inspiration

Inspired by a love of contemporary furniture design, we offer bespoke furniture of exceptional quality for bedrooms, dressing rooms and living rooms, as well as custom-made bathrooms and architectural joinery.

We've been operating as a small family business for over three decades, and we believe it's not just our exclusive, distinctive designs that set us apart from the rest, but also our genuine passion for our furniture.

“

We were working on the interior of the luxury penthouse in our flagship development in Totteridge Lane, so the wardrobes we chose for the master bedroom really needed to be something special. We wanted a design which had a strong wow factor, and which would be a feature of the apartment. We contacted Minimo about the possibility of creating a fully bespoke wardrobe to suit the space. From the outset they were extremely helpful. We briefed them and showed them some pictures of the sort of thing we wanted, and after one visit to measure up they sent us some really beautiful designs. They interpreted what we wanted exactly.

Getting the right finish was very important to us - the colours had to match the others in the bedroom, but of course it had to look stunning in its own right. Minimo took a few samples of our existing materials and matched it with a beautiful, rich walnut veneer, topped off with a high gloss finish.

Having chosen the design and the finishes, the next thing to happen was basically the installation. Minimo went through our site manager, and everything was fitted within a week. It was an absolutely seamless installation.

Minimo have proved to be professional and reliable, and their communication throughout was excellent. Everything was really easy and straightforward, no delays or excuses, everything happened exactly as they said it would. It really was a very smooth process. On top of that, the end result was stunning. We are extremely happy with the bespoke wardrobes from Minimo – they are a real feature of the penthouse. We've used other companies for wardrobes before, and Minimo's are noticeably higher quality. We'll definitely be using Minimo again. ”

Our service

However high we set our standards of workmanship, and however dedicated our craftsmen to creating truly exceptional quality pieces of furniture, quality is only the half of it. We believe that whatever we offer in our quality, we should offer again in standards of service.

“ Minimo has made furniture for two of my properties and on each occasion either Malcom, the owner of the company, or his son, Matthew has come to oversee the installation. Being a family business it's a very personal service and I felt that my needs were really understood and catered for. We have dealt with other top designers and the service has never come anywhere near that which we've had from Minimo.

In terms of the quality of the products, I didn't really understand just how good they were until they arrived. The workmanship is excellent, way and above anything we've had before. We couldn't have asked for more. ”

Tony Fleming, Private Customer, East Sussex

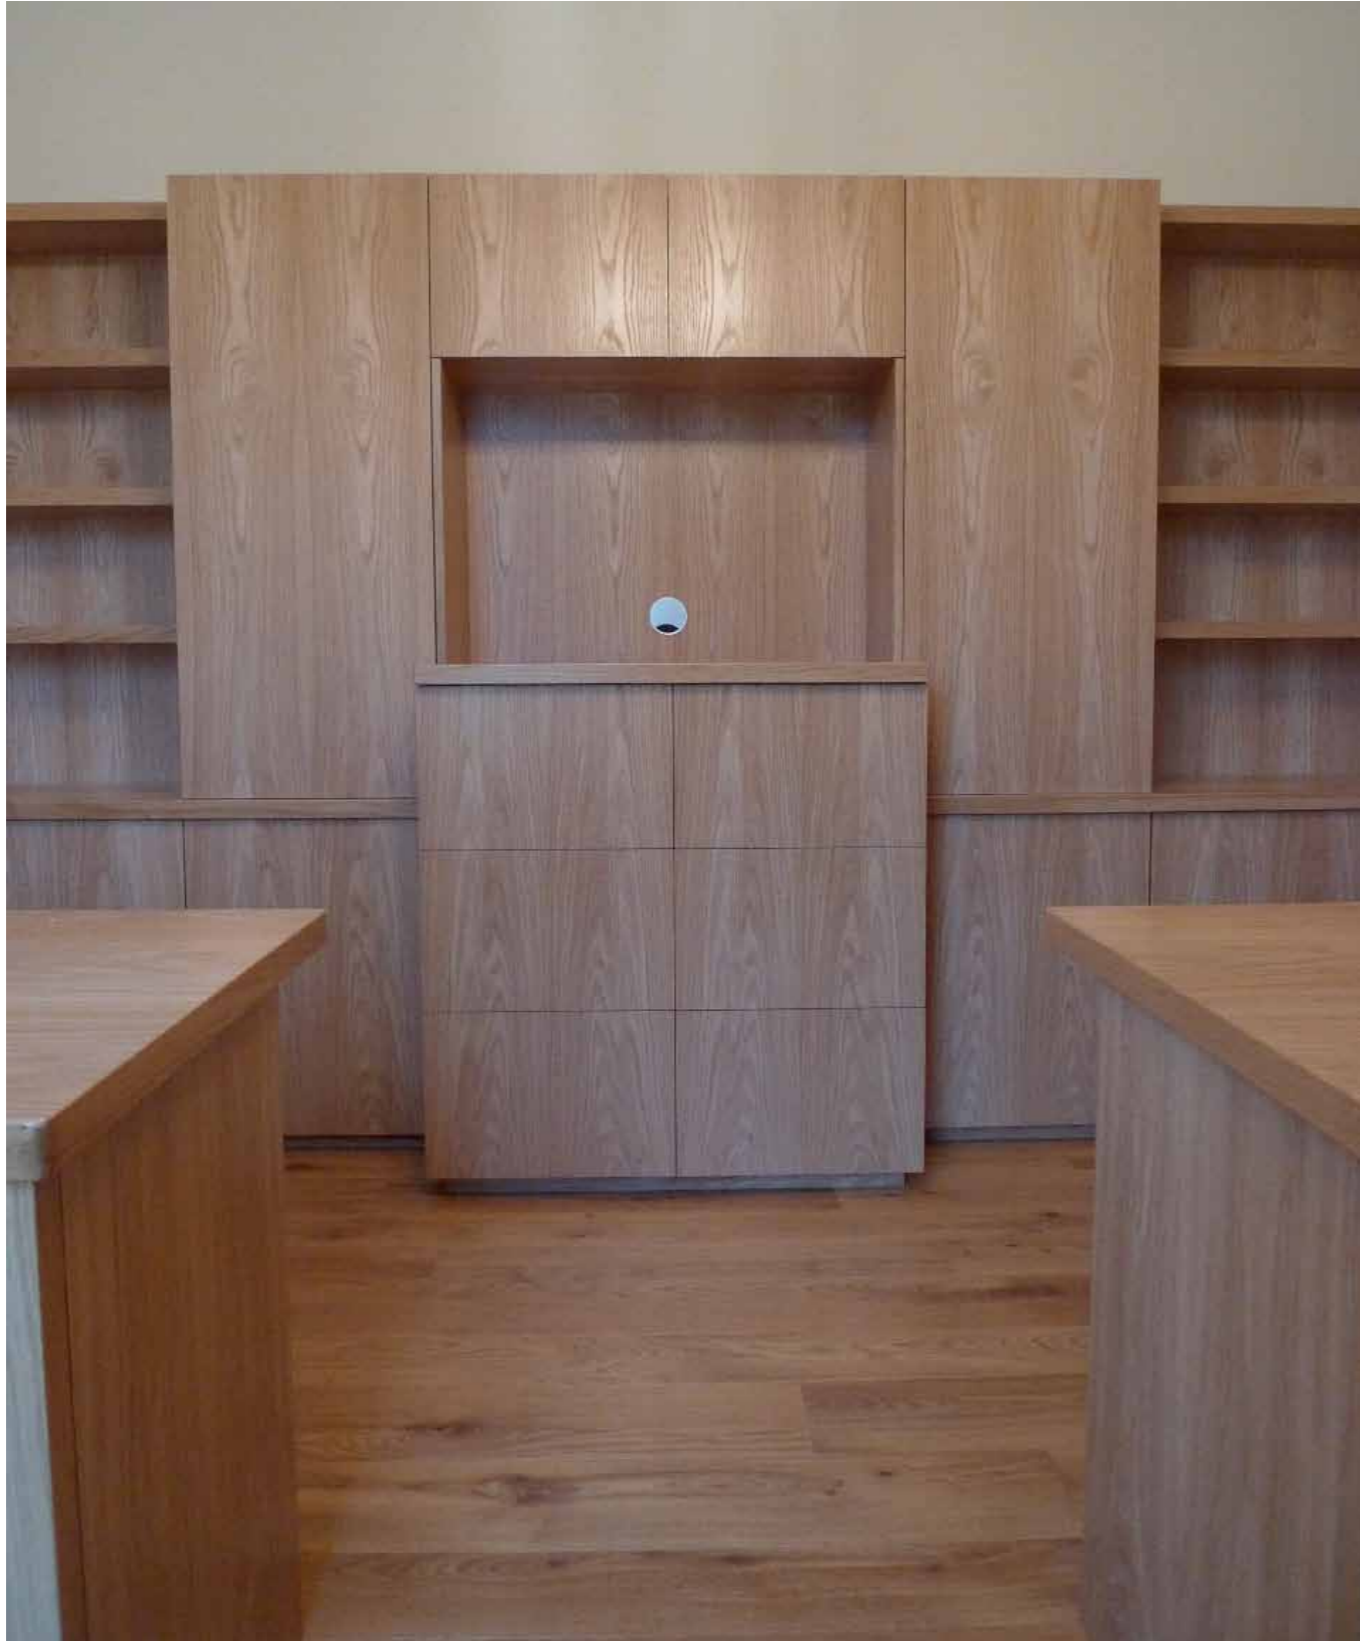

Our Bespoke Furniture

Each individual piece of Minimo's bespoke furniture is based on an original design, meticulously planned to your personal taste. For every item, we select specific veneers and woods to suit the piece of furniture we are making, to not only show off the grain & colour of the wood but to enhance the overall design.

All our bespoke furniture is skillfully manufactured in our workshop by our dedicated craftsmen before being installed in your home at a date convenient to you.

“ Not only do the wardrobes look exquisite, but the designs really work well in the space. From the doors to the fittings to the incredible, smooth veneers, everything is exquisitely finished; the craftsmanship is excellent.

The installation service was second to none. We needed everything very quickly and Minimo were very accommodating on changes to schedule on our side. They were very straightforward and easy to deal with. In all our work with Minimo we had complete peace of mind knowing that once the order was placed, we could leave them to it.

They delivered on everything, and everything arrived on time. They always did what they said they were going to do. We've done two sites with Minimo and we'll definitely be working with them again. ”

Lisa Blatcher, Design and Marketing Manager, Beaufield Homes

Our Bespoke Bathrooms

Where you are looking to incorporate designs and finishes from the bedroom into the en-suite or even the family bathrooms, Minimo is well placed to create custom made furniture that complements your chosen style. We are often asked to design and make bathroom fittings such as bathroom cabinets, shelving, mirrors, and vanity units for our customers to match their bedroom furniture. During the design and installation process, we work with your architects and plumbers to ensure that everything runs smoothly, so that when our fitters leave, you are left with a flawless, luxurious bathroom which is ready for you to enjoy.

Our Architectural Joinery

Combining the finest veneers, exceptional quality of workmanship and a craftsman's eye for detail, our architectural joinery services are of the highest standards. Working with home owners, architects and developers, we design and manufacture bespoke staircases, handrails, skirting and architraves, as well internal and external doors.

Once you have met with your Minimo Project Manager, and the custom design has been approved and the manufacturing stage is complete, our experienced fitters are able to work to your timescale and liaise with you or your site manager, to ensure your joinery and fittings are installed to schedule, and to the same high standards as all of our other bespoke furniture.

Our Contemporary Furniture

Minimo doesn't stop at bespoke furniture. We also offer contemporary bedroom systems which include fitted wardrobes, walk-in wardrobes and dressing rooms, sliding door systems and free-standing bedroom furniture, sourced from some of the most prestigious furniture makers in Italy.

Our clients include architects, property developers and designers as well as private buyers. Of course, they all have one thing in common – an eye for beautiful design.

“ I’d always dreamed of building my own house, and we finally did it last year. When it came to finding furniture for our new home, we opted for beautiful Italian wardrobes from Minimo.

When choosing the designs we liked, Matt helped us select the best features from our favourite styles, putting them all together to create a really aesthetic wardrobe that made the best use of the space we had. Having met me at home to discuss the sort of thing I was looking for, and to take measurements, Matt sent me drawings in the post. I made a few alterations, sent them back, and hey presto, that was the design all done.

The results were spectacular, and thinking back, it really was incredibly simple to get exactly what I wanted. I would certainly have Minimo wardrobes in my next house. ”

Susan Holder, Private Customer, London
